ROSES *and* PLANTS

2021 NEW WOODY VARIETIES

ABELIA

Apple Perfection

Abelia hybrid '00-bc-47-7r' PPAF

Apple Perfection is an Abelia that is uniformly mounded and rarely throws whips, resulting in less needed trimming. It produces an abundance of pure white flowers over extremely glossy, green foliage.

FLOWER COLOR: White
FOLIAGE: Glossy green
HABIT: Compact, mounded, 4-5' h x 4-5' w
ZONES: 6-9

Raspberry Perfection

Abelia chinensis 'Abespras' PPAF

Raspberry Perfection is a compact plant that rarely throws whips, resulting in less needed trimming. It is a very heavy bloomer with dark pink sepals that persist after flowers have passed, extending its color interest.

FLOWER COLOR: Light pink
FOLIAGE: Green
HABIT: Compact, mounded, 3-4' h x 2-3' w
ZONES: 6-9

BUDDLEIA

Dapper[®] Lavender

Buddleia davidii 'Buddaplav' PPAF

A rounded, compact plant with sturdy stems makes this Buddleia a perfect fit for a variety of uses. Light purple flowers are formed in early summer and continue to re-bloom into the fall. Spent flowers are hidden by new blooms, reducing the need for deadheading.

FLOWER COLOR: Light purple
FOLIAGE: Green
HABIT: Compact, mounded, 3-4' h x 3-4' w
ZONES: 6-9

BUDDLEIA

Dapper® White

Buddleia davidii 'Dapconwhi' PPAF

A rounded, compact plant with sturdy stems makes this Buddleia a perfect fit for a variety of uses. White flowers are formed in early summer and continue to re-bloom into the fall. Spent flowers are hidden by new blooms, reducing the need for deadheading.

FLOWER COLOR: White	FOLIAGE: Green
HABIT: Compact, mounded, 3-4' h x 3-4' w	ZONES: 6-9

HIBISCUS

Head Over Heels® Desire

Hibiscus moscheutos 'RutHib4' PPAF

This Hibiscus has scarlet colored blooms that make a bold statement against rich, burgundy foliage. Large, saucer-shaped flowers are presented on a dense, compact plant. Works great in containers or in the garden.

FLOWER COLOR: Red	FOLIAGE: Burgundy
HABIT: Compact, mounded, 3-4' h x 3-4' w	ZONES: 4-10

HIBISCUS

Head Over Heels® Dream

Hibiscus moscheutos 'RutHib5' PPAF

This compact Hibiscus is a dream! Large, white flowers with red centers make for a stunning display that contrasts nicely against burgundy foliage. Works great in containers or in the garden.

FLOWER COLOR: White	FOLIAGE: Burgundy
HABIT: Compact, mounded, 3-4' h x 3-4' w	ZONES: 4-10

HYDRANGEA

Akadama™

Hydrangea macrophylla 'SK2DAMA' PP 28,860

This Hydrangea is a heavy bloomer with striking flower color that starts deep pink and gradually darkens. The contrast against clean, dark green foliage is stunning, and the compact habit makes it perfect for containers and small spaces. Foliage will turn burgundy in cooler fall and spring temperatures.

FLOWER COLOR: Deep pink	FOLIAGE: Dark green
HABIT: Compact, upright, 4-5' h x 4-5' w	ZONES: 6-9

LAGERSTROEMIA

Bellini® Guava

Lagerstroemia indica 'Bellaggua' PPAF

The Bellini® series of Lagerstroemia is made up of compact, early blooming plants with good resistance to powdery mildew. Bellini® Guava displays beautiful, light pink flowers on a slightly prostrate plant.

FLOWER COLOR: Light pink	FOLIAGE: Green
HABIT: Compact, mounded, 3-4' h x 3-4' w	ZONES: 6-9

Bellini® Strawberry

Lagerstroemia indica 'Strawconbel' PPAF

Bellini® Strawberry is compact and early blooming, and it displays bright red flowers in the heat of summer. In cooler spring and fall temperatures, buds sometimes open white or pink, resulting in multiple colors on one plant.

FLOWER COLOR: Red	FOLIAGE: Green
HABIT: Compact, mounded, 3-4' h x 3-4' w	ZONES: 6-9

LAGERSTROEMIA

My Fair Myrtle™

Lagerstroemia indica 'Faifarlag' PPAF

Achieve reliable beauty using My Fair Myrtle™ in your landscape. This selection of Lagerstroemia was chosen for its heavy flower set, clean, dark green foliage, and exceptional overwintering in zone 6b. It vigorously re-flushes from dormancy into a dense, mounded habit. It has shown good resistance to powdery mildew.

FLOWER COLOR: Deep pink	FOLIAGE: Dark green
HABIT: Mounded, 4-5' h x 4-5' w	ZONES: 6b-10

NANDINA

'Tuscan Flame'

Nandina domestica 'Tuscan Flame' PP 21,940

This compact evergreen puts on a great color show. New growth emerges a striking red color that lasts through most of the season before aging to an attractive, dark green. It is drought tolerant and low-maintenance.

FLOWER COLOR: None	FOLIAGE: Red to dark green
HABIT: Compact, rounded, 3-4' h x 2-3' w	ZONES: 5-9

SPIRAEA

Empire™ Ice Dragon

Spiraea japonica 'Iceconspir' PPAF

Ice Dragon displays attractive foliage on a compact habit. New growth emerges a deep burgundy against blue-green, older foliage for a striking contrast. Pink flowers start in late spring and sporadically re-bloom throughout the season. It is low-maintenance and performs excellently in the landscape.

FLOWER COLOR: Pink	FOLIAGE: Burgundy, blue-green
HABIT: Compact, mounded, 3-4' h x 3-4' w	ZONES: 4-9

Empire™ Northern Lights

Spiraea japonica 'DAVCOP01' PP 31,996

Northern Lights shows off a brilliant display of three colors on one plant. New growth emerges bright red before aging to yellow and then light green. Foliage colors are most intense in spring and fall. Pink flowers start in late spring and sporadically re-bloom throughout the season. It is low-maintenance and performs excellently in the landscape.

FLOWER COLOR: Pink	FOLIAGE: Red, yellow, green
HABIT: Compact, mounded, 3-4' h x 3-4' w	ZONES: 4-9

SYRINGA

New Age Lavender

Syringa vulgaris 'G13099' PP 32,623

It's a New Age for Lilacs! This compact, well-behaved Lilac finishes faster than others on the market. It produces fragrant flowers in the spring, is resistant to mildew, and displays attractive, clean foliage throughout the season.

FLOWER COLOR: Lavender	FOLIAGE: Green
HABIT: Compact, upright, 4 ½-5' h x 4-5' (at 5 years of age)	ZONES: 4-7

New Age White

Syringa vulgaris 'G13103' PP 32,670

It's a New Age for Lilacs! This compact, well-behaved Lilac finishes faster than others on the market. It produces fragrant flowers in the spring, is resistant to mildew, and displays attractive, clean foliage throughout the season.

FLOWER COLOR: White	FOLIAGE: Green
HABIT: Compact, upright, 4 ½-5' h x 4-5' (at 5 years of age)	ZONES: 4-7

TECOMA

'Red Hot'

Tecoma hybrid 'Red Hot' PPAF

Tecoma 'Red Hot' has drought tolerance, a compact habit, and unique flower color. Flowers open crimson red and age to intense orange with a yellow center. The trumpet-shaped blooms are lightly fragrant and attract hummingbirds.

FLOWER COLOR: Orange, red, yellow	FOLIAGE: Green
HABIT: Compact, rounded, 4' h x 4' w	ZONES: 9–11

TULBAGHIA

'Flamingo'

Tulbaghia hybrid 'Flamingo' PP 32,405

This Tulbaghia offers up an eye-catching color display. The foliage is lime green with a neon pink base that persists throughout the season, bringing great color to the landscape. 'Flamingo' prefers some shade in the garden and is low-maintenance.

FLOWER COLOR: Pink	FOLIAGE: Lime green with bright pink base
HABIT: Compact, 2–2½' h x 1½–2' w	ZONES: 7–11

THUJA

Emerald Squeeze™

Thuja occidentalis 'Lilsbreckthu' PPAF

Emerald Squeeze™ is everything you love about Thuja Emerald Green in a smaller package. Growing to a mature height of around eight feet, it's a perfect choice for smaller gardens and hedge spaces. It has excellent foliage color and a dense habit that favors a single leader, resulting in a tidy looking plant. Although compact, this variety does not take longer to finish in production.

FLOWER COLOR: None	FOLIAGE: Green
HABIT: Compact, upright, 8 ½' h x 4' w (at 20 years of age)	ZONES: 4–8
