STAR® ROSES AND PLANTS TRADEMARK USAGE GUIDELINES for the DRIFT® and GROUNDCOVER ROSES MADE EASY® Trademark

Star® Roses and Plants/Conard-Pyle (hereinafter the “Company”) trademarks and logos are among the most critical elements of our identity and convey many aspects of our business. The DRIFT® roses and the GROUNDCOVER ROSES MADE EASY® marks are widely recognized as a positive industry symbol that highlights our commitment to the Plant and Horticultural Industry nationally and internationally.

A trademark is a word, name, symbol, device, design or phrase adopted and used by the Company to identify its goods and to distinguish them from the goods of others. Trademarks, otherwise known as brands, are usually marked with either a ™ or an ® symbol (the Company typically uses ™ to designate an unregistered trademark and an ® to designate a registered trademark).

The DRIFT® and GROUNDCOVER ROSES MADE EASY® trademarks are registered marks that are used in connection with roses and marketed nationally and internationally to signify the quality and excellence for which the Company is known. The Company has obtained valuable rights through proper, lengthy, exclusive and continuous use of its trademarks. Adherence to the following usage guidelines will help us maintain the integrity of our brands and preserve their value.

Referential Trademark Usage:

The DRIFT® and GROUNDCOVER ROSES MADE EASY® trademarks identify the brand or source of a line of Company plant products, namely roses, and may be used on tags affixed to the products or on elevator stakes as indicated in the Compliant Container and Tag example attached hereto. The marks may also be used in related marketing and promotional literature, print materials and other related media provided that:

- You adhere to these trademark usage guidelines
- You do not imply a relationship or association with the Company that does not exist
- You use appropriate notice on all trademark usage
- You always use trademarks and logos in the manner intended by the Company
- You do not use them for goods or services for which they were not originally intended. You may not alter them in any way.
- You do not incorporate the Company trademarks or logos into your or other third-party product names, service names, trademarks, logos, or company names.
- You ensure that any use of the Company trademarks and logos are (a) truthful, fair and not misleading and (b) comply with Company guidelines, which may be modified by the Company at any time at its sole discretion.

General Trademark Usage Guidelines:

Use appropriate markings. Always designate the trademark with the appropriate symbol - ™ or ®.

Use the Company trademarks as an adjective. A trademark is an adjective that modifies a noun; the noun is the generic name of a product or service. Always use the DRIFT® and GROUNDCOVER ROSES MADE EASY® trademark as an adjective to identify the brand or source of the plant product followed by the generic plant name. Never use the DRIFT® or GROUNDCOVER ROSES MADE EASY® trademark as a cultivar name or as a noun to identify the plant itself. Do not use the DRIFT® or GROUNDCOVER ROSES MADE EASY® trademark in the plural or possessive form. If using DRIFT® after the color, or cultivar name, the word DRIFT® must be in all caps, different size font or different font. The trademark must be denoted from the color or cultivar so as not to confuse that the color or cultivar is part of the trademark.
