

STAR® ROSES *and* PLANTS • WOODY ORNAMENTALS

PLANTS FOR POLLINATORS

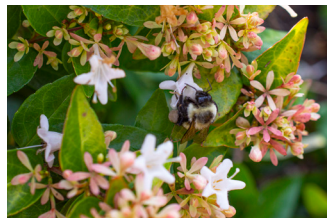

RASPBERRY PERFECTION™ ABELIA *Abelia chinensis* 'Abespras' PP 33,516

Apple Perfection™ Abelia
Abelia hybrid '00-bc-47-7r' PPAF

Apple Perfection™ is uniformly mounded and rarely throws whips, resulting in less needed trimming. It produces an abundance of pure white flowers over extremely glossy green foliage.

Peach Perfection® Abelia
Abelia hybrid 'SRPabeper' PP 30,954

Peach Perfection® displays attractive tricolor foliage on stunning red stems. New growth emerges bright orange, eventually turning to yellow and green as it ages. The yellow foliage holds up well in the sun and heat. This plant will maintain a compact, rounded habit.

Raspberry Perfection™ Abelia
Abelia chinensis 'Abespras' PP 33,516

Raspberry Perfection™ is a compact plant that rarely throws whips, resulting in less needed trimming. It is a very heavy bloomer with dark pink sepals that persist after flowers have passed, extending its color interest.

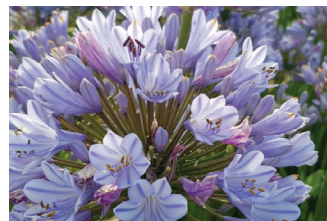

Straight A® 'Barley Blue'
Agapanthus *Agapanthus praecox* 'Barley Blue'

Add early color interest to your garden with Straight A® 'Barley Blue'. This early bloomer will enchant the garden with its light blue flowers and strong stems. Its compact habit makes it a great accent or filler plant for the garden border or mixed container.

Straight A® 'Blue Bayou'
Agapanthus *Agapanthus praecox* 'Blue Bayou' PP 26,420

Straight A® 'Blue Bayou' will dazzle the garden with its eye-catching, deep blue, pendulous flowers. Enjoy the ease of this self-cleaning plant, which maintains a tidy look long after blooms expire. This variety is a mid-to-late season bloomer.

Straight A® 'Blue Flare'
Agapanthus *Agapanthus praecox* 'Blue Flare' PP 26,422

Straight A® 'Blue Flare' creates an eye-catching display by showing off two-toned flowers. Flowers open light blue with a dark blue mid rib running down each of the petals. This variety has a long bloom window and will display flowers through late summer.

Straight A® Jonie Blue™
Agapanthus *Agapanthus praecox* 'Jonie' PP 25,557

This early- to mid-season bloomer displays full clusters of dark blue-purple flowers on very sturdy stems. Straight A® Jonie Blue™ is a compact variety with long enough stems to be used as cut flowers. This selection works wonderfully as a patio plant and in garden borders.

Straight A® 'Purple Delight'
Agapanthus *Agapanthus praecox* 'Purple Delight'

Straight A® 'Purple Delight' lives up to its name by showing off pendulous, dark purple flowers on sturdy stems. This variety is a summer bloomer with large, individual flowers making up each flower head. Its strong stems and eye-catching flower color make it great for both the garden and as a cut flower.

PLANTS FOR POLLINATORS

Straight A® 'Shona' Agapanthus

Agapanthus praecox 'Shona' PP 31,887

Meet the longest blooming Agapanthus in our collection. Straight A® 'Shona' displays clusters of pure white flowers that put on a bloom show for close to six months. This variety is also early to bloom.

Chocolate Fountain® Albizia

Albizia julibrissin 'NCAJ1' PP 25,813

Chocolate Fountain® is the only weeping silk tree with purple foliage on the market. It is well adapted to smaller spaces or containers. The fern-like foliage and pendulous, weeping habit make this a unique variety. Delicate pink flowers form in the summer.

Albizia 'Summer Chocolate'

Albizia julibrissin 'Summer Chocolate'

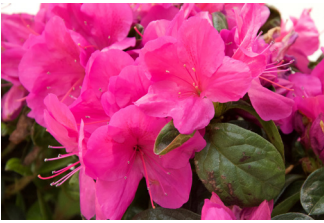

'Summer Chocolate' is a beautiful deciduous tree with a lovely arching habit and umbrella canopy. The fern-like, compound foliage starts green and changes to a rich chocolate burgundy by summer. Fragrant, pink pincushion flowers appear in summer and contrast nicely against the vibrant foliage.

Asclepias 'Monarch Magnet 2.0'

Asclepias linaria 'Monarch Magnet 2.0' PPAF

'Monarch Magnet 2.0' is a pollinator's dream! This plant boasts unique foliage with white flower clusters that bloom spring through fall. It is easy to grow and makes a wonderful impact when planted in groups.

FlorAmore® Hot Pink Azalea

Azalea 'Lazamoripi' PP 27,521

Say hello to the hot pink member of the FlorAmore® Azalea family. This showstopper is part of a series of re-blooming azaleas available in multiple bright, bold colors. These plants produce an impressive display of color during each re-bloom due to their heavy flower set.

FlorAmore® Lavender Azalea

Azalea 'Lazamorav' PP 27,470

With its impressive display of lavender blooms, FlorAmore® Lavender is a garden delight. This beauty is part of a series of re-blooming azaleas available in multiple bright, bold colors. These plants produce an impressive display of color during each re-bloom due to their heavy flower set.

FlorAmore® Pink Azalea

Azalea 'Lazamorink' PP 27,522

Perfect in pink! This cheerful Azalea will bring a healthy dose of color to any garden. It is part of a series of re-blooming azaleas available in multiple bright, bold colors. These plants produce an impressive display of color during each re-bloom due to their heavy flower set.

FlorAmore® Red Azalea

Azalea 'Lazamored' PP 27,523

FlorAmore® Red dazzles with its beautiful red blooms. This showstopper is part of a series of re-blooming azaleas available in bright, bold colors. These plants produce an impressive display of color during each re-bloom due to their heavy flower set.

FlorAmore® White Azalea

Azalea 'Lazamorwhi' PPAF

FlorAmore® White is filled with abundant, bright white blooms on a compact plant. This showstopper is part of a series of re-blooming azaleas available in bright, bold colors. These plants produce an impressive display of color during each re-bloom due to their heavy flower set.

CranRazz™ Buddleia

Buddleia hybrid 'Boscran' PP 25,730

The award-winning, game-changing color of this Buddleia has gardeners seeing cranberry red. This extremely free-flowering variety blooms from spring until mid-fall. Its panicles grow an amazing 8" long and attract butterflies and hummingbirds. A heat-tolerant selection for the landscape.

Dapper® Lavender Buddleia

Buddleia davidii 'Buddaplav' PP 33,625

A rounded, compact habit with sturdy stems makes this Buddleia a perfect fit for a variety of uses. Light purple flowers are formed in early summer and continue to re-bloom into the fall. Spent flowers are hidden by new blooms, reducing the need for deadheading.

Dapper® White Buddleia

Buddleia davidii 'Dapconwhi' PP 33,566

A rounded, compact habit with sturdy stems makes this Buddleia a perfect fit for a variety of uses. White flowers are formed in early summer and continue to re-bloom into the fall. Spent flowers are hidden by new blooms, reducing the need for deadheading.

PLANTS FOR POLLINATORS

Flutterby Petite® Blue Heaven Buddleia

Buddleia hybrid 'Podaras #8' PP 22,069

Flutterby Petite® Blue Heaven is a compact variety with a mounding, spreading habit. Vibrant blue flowers are accented by fuzzy, silvery green foliage and will bloom from early spring until frost. A hummingbird and butterfly magnet, it's perfect for small gardens, mass plantings, beds, or borders.

Flutterby Petite® Tutti Fruitti Pink Buddleia

Buddleia hybrid 'Podaras #13' PP 22,177

Flutterby Petite® Tutti Fruitti Pink has incredibly fragrant fuchsia blooms that present themselves over the low-mounding, green foliage of the shrub. This variety blooms all summer and can be used effectively as a groundcover or as an anchor addition to perennial beds.

RoyalRazz® Buddleia

Buddleia davidii 'SRPbudroy' PP 33,161

RoyalRazz® is one of the brightest purple Buddleia on the market. The excellent color and long bloom window guarantee garden interest from spring through mid-fall. Its large panicles of flowers attract butterflies.

True Blue™ Buddleia

Buddleia hybrid 'Bostulu' PP 25,708

This Buddleia produces gorgeous flowers as true to blue as the market has seen. Strong stems and an upright habit make this variety great for borders, embankments, and landscape plantings, as well as use in mixed containers. It is a continuous bloomer from summer until frost and will attract butterflies.

Dragon Fire® Callistemon

Callistemon viminalis 'Calfir' PPAF

Dragon Fire® shows off scarlet red blooms on a compact, evergreen shrub. Blooms start in spring and continue through the summer, contrasting nicely against clean, bright green foliage. It is tolerant of coastal conditions, as well as high heat and humidity.

Summer Jazz™ Fire Campsis

Campsis x tagliabuana 'Takarazuka Fresa' PP 23,917

The bright red-orange flowers on this compact trumpet vine make a fiery statement on a small trellis or fence. Hummingbirds and butterflies are naturally drawn to the bloom shape and color. Winner of the Gold Medal for "Best New Plant" at 2014 Plantarium.

Summer Jazz™ Sunrise Gold Campsis

Campsis x tagliabuana 'Takarazuka Yellow' PP 23,918

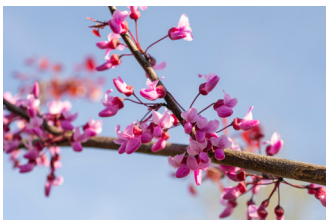

Large flowers open peach-orange and mature to yellow with orange-red throats and red veining. The Summer Jazz™ series is compact with a tamer, more restrained growth rate than other trumpet vine varieties, making it ideal for a small trellis or fence. Also great for attracting hummingbirds and butterflies!

Carolina Sweetheart® Cercis

Cercis canadensis 'NCCC1' PP 27,712

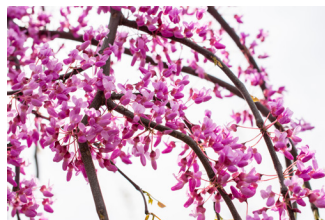

Carolina Sweetheart® has attractive, variegated foliage. Rich maroon leaves unfurl in early spring, eventually becoming green with white margins. It maintains the elegant, broad, heart-shaped leaves expected of redbud trees. Cercis is a genus native to Eastern North America. A result of the combined efforts of NCNLA and NC State University.

Flame Thrower® Cercis

Cercis canadensis 'NC2016-2' PP 31,260

This Cercis will take your breath away! New growth emerges burgundy red, followed by bright yellow and green as it ages. The color display is persistent throughout the season, often showing four to five different shades on a single branch. Developed by the JC Raulston Arboretum at NC State University.

Golden Falls® Cercis

Cercis canadensis 'NC2015-12' PP 31,658

Golden Falls® offers a breakthrough foliage color for a weeping Cercis. In spring, new growth is tinged with orange, followed by bright gold leaves that hold up well in the sun and heat. The narrow, weeping architecture of this variety lends itself well to small garden spaces. Developed by the JC Raulston Arboretum at NC State University.

Cercis 'Pink Pom Poms'

Cercis canadensis 'Pink Pom Poms' PP 27,630

Fully double, pink flower clusters emerge in the spring followed by large, heart-shaped green foliage. 'Pink Pom Poms' is a female, sterile variety that does not produce seed pods. Developed by the JC Raulston Arboretum at NC State University.

Chilopsis 'Sweet Bubba'

Chilopsis linearis 'Sweet Bubba' PP 33,091

'Sweet Bubba' is a low-maintenance tree that thrives in dry, low-water climates. It displays eye-catching, magenta flowers that are much larger than other Chilopsis varieties. The blooms are fragrant and enduring.

PLANTS FOR POLLINATORS

**Grevillea
'Kings Celebration'**
Grevillea hybrid 'Kings Celebration'
PP 27,899

This variety blooms year-round in southern California bringing color to the garden. Especially effective when used as a screen or alone in the landscape. The multicolored flowers are striking and attractive to hummingbirds and bees.

Grevillea 'Kings Fire'
Grevillea hybrid 'Kings Fire' PP 27,875

This variety has exotic blooms that flower year-round in southern California. It's tough, durable, and drought tolerant with lots of textured color. 'Kings Fire' performs well in containers or in the landscape and is a favorite of hummingbirds. Blue Ribbon™ Winner for outstanding, low water performance in 2017-2019 WUCOLS trials.

Grevillea 'Kings Rainbow'
Grevillea hybrid 'Kings Rainbow'
PP 27,931

This variety has exotic blooms that flower year-round in southern California. It's sturdy, drought tolerant, and offers striking colorful texture. 'Kings Rainbow' grows well in containers or in the landscape and is a favorite of hummingbirds.

Grevillea 'Kings Sunrise'
Grevillea hybrid 'Kings Sunrise' PP 33,941

'Kings Sunrise' produces rich orange blooms against finely textured foliage. With low water requirements and an ability to thrive in high heat and sun, this plant is extremely low maintenance with high reward. Its flowers are a favorite stop for hummingbirds.

**Grevillea 'Peaches
and Cream'** *Grevillea hybrid*
'Peaches and Cream' PP 18,035

This shrub has a dense, spreading habit and attractive, bright green, deeply dissected foliage. Long, loose flower clusters of peach and cream bloom year-round. It is attractive when planted in a container or in the landscape. The multicolored, long-lasting flowers are attractive to hummingbirds and bees.

Grevillea 'Spirit of Anzac'
Grevillea hybrid 'Spirit of Anzac'
PP 29,372

This low-maintenance evergreen shrub thrives in full sun and heat with low water requirements. Silver-green foliage is a wonderful contrast to the bright red flowers that fill a long bloom window and are a favorite stop for hummingbirds.

**Head Over Heels®
Adore™ Hibiscus**
Hibiscus moscheutos 'RutHib3' PP 32,883

This Hibiscus offers a bright burst of color on a petite plant. The large, pink flowers open slightly later than other varieties in the series, extending the window of color into the fall season. Burgundy foliage offers a nice contrast to the bright flowers for an eye-catching display in containers and in gardens.

**Head Over Heels®
Blush Hibiscus**
Hibiscus moscheutos 'RutHib1' PP 30,824

Graceful, blush pink blooms are plentiful on this beautiful Hibiscus. The contrast between the bright flowers and dark burgundy foliage creates an eye-catching experience. This series displays exceptionally large flowers in a range of vivid colors.

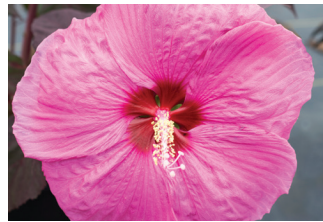

**Head Over Heels®
Desire™ Hibiscus**
Hibiscus moscheutos 'RutHib4' PPAF

This Hibiscus has scarlet-colored blooms that make a bold statement against rich, burgundy foliage. Large, saucer-shaped flowers are presented on a dense, compact plant. This variety is better branched than other options on the market and creates an improved presentation in the landscape and in containers.

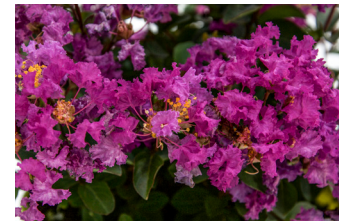

**Head Over Heels®
Dream™ Hibiscus**
Hibiscus moscheutos 'RutHib5' PPAF

This compact Hibiscus is a dream! Large white flowers with red centers make for a stunning display that contrasts nicely against burgundy foliage. This variety is better branched than other options on the market and creates an improved presentation in the landscape and in containers.

**Head Over Heels®
Passion™ Hibiscus**
Hibiscus moscheutos 'RutHib2' PP 30,853

Exquisite, bright pink blooms set this beautiful Hibiscus afire. The contrast between the bright flowers and dark burgundy foliage creates an eye-catching experience. This series makes an excellent display in the garden, as well as in containers.

**Bellini® Grape
Lagerstroemia**
Lagerstroemia indica 'Congrabel' PP 28,975

Bellini® Grape is a delicious purple treat for the garden. Plants maintain an attractive, compact, rounded habit in the landscape, making it a reliable addition to any space. It blooms the first year in a container after transplanting from a liner and will re-bloom from a trim. This variety is also resistant to deer and powdery mildew.

PLANTS FOR POLLINATORS

Bellini® Guava
Lagerstroemia

Lagerstroemia indica 'Bellagua' PP 33,482

The Bellini® series of Lagerstroemia is made up of compact, early blooming selections with increased resistance to powdery mildew. Bellini® Guava displays beautiful, light pink flowers on a slightly prostrate plant. An incredibly high flower count makes this variety a heavy bloomer.

Bellini® Raspberry
Lagerstroemia

Lagerstroemia indica 'Conlagras' PP 29,006

Bellini® Raspberry is a delicious rose-colored treat for the garden. Plants maintain an attractive, compact, rounded habit in the landscape, making it a reliable addition to any space. It blooms the first year in a container after transplanting from a liner and will re-bloom from a trim.

Bellini® Strawberry
Lagerstroemia

Lagerstroemia indica

The Bellini® series of Lagerstroemia is made up of compact, early blooming selections with increased resistance to powdery mildew. Bellini® Strawberry displays bright red flowers in the heat of summer. In cooler spring and fall temperatures, buds will sometimes open white or pink.

Lagerstroemia Enduring
Lavender

Lagerstroemia indica 'PILAG B4'
PP 25,195

A re-blooming, dwarf series brought to you by Dr. Michael Dirr. This variety blooms early and all summer long. It is tolerant of both heat and drought, deer resistant, and makes an excellent accent or container plant.

Enduring Red™
Lagerstroemia

Lagerstroemia hybrid 'PILAG B5'
PP 25,476

Enduring Red™ makes a dazzling addition to any garden. This compact variety blooms early and all summer long. It is tolerant of both heat and drought, deer resistant, and makes an excellent accent or container plant.

My Fair Myrtle®
Lagerstroemia

Lagerstroemia indica 'Faifarlag' PP 33,481

Achieve reliable beauty with My Fair Myrtle® in the landscape. This selection of Lagerstroemia was chosen for its heavy flower set; clean, dark green foliage; and exceptional overwintering in Zone 6b. It vigorously re-flushes from dormancy into a dense, mounded habit.

Leucophyllum
'San Antonio Rose'

Leucophyllum frutescens 'San Antonio Rose'
PP 33,454

'San Antonio Rose' displays large, bright pink flowers in abundance throughout the summer. Its bold blooms and silver-green foliage make an eye-catching planting in the garden. This variety produces larger flowers than other Leucophyllum.

Leucospermum Royal
Hawaiian 'Blanche Ito'

Leucospermum × 'Blanche Ito'

This evergreen shrub boasts upright stems to support its lance-shaped, two-inch long leaves. Blooms emerge at branch tips as yellow pincushions and age to red for a dramatic statement in the landscape and in containers. Wonderful for use as a cut flower with a vase life of about 16 days.

Leucospermum Royal
Hawaiian 'Brandi'

Leucospermum × 'Brandi'

This evergreen shrub boasts upright stems to support its lance-shaped, two-inch long leaves. Blooms emerge at branch tips as bright orange pincushions for a dramatic statement in the landscape and in containers. Wonderful for use as a cut flower with a vase life of about 20 days.

Peaches and Cream™
Lonicera

Lonicera periclymenum 'Inov86' PP 21,839

Peaches and Cream™ Lonicera has a compact habit that is suitable for a trellis or a groundcover. Its beautiful, deep magenta buds open to a burst of fragrant pink and white, bicolored flowers. Flowering occurs from late spring until fall. This variety is loved by hummingbirds!

Purple Plunge® Prunus

Prunus cerasifera 'NCPR-7' PP 32,190

Purple Plunge® has a unique pendulous, branching habit, which gives it a graceful, weeping growth form. This small tree has large and fragrant blush pink flowers in its second year. This Prunus has not produced fruit in 10 years of observation. Developed by the JC Raulston Arboretum at NC State University.

Ruby Ruffle® Prunus

Prunus persica 'NC Peach-6' PP 34,261

Ruby Ruffle® Patio Peach gets its name from the ruffled appearance of its leaves and petals. A heavier bloomer than other varieties on the market, this small tree flushes with semi-double dark pink flowers every spring and presents dark burgundy foliage that reliably retains its color. The well-behaved habit is ideal for small gardens and decorative containers.

Black Tower™ Sambucus
Sambucus nigra 'Eiffel 1' PP 23,633

With a strong, upright growth habit and intense burgundy-black foliage, Black Tower™ creates a beautiful contrast with other plants in the landscape. The soft and airy texture of its foliage is reminiscent of a Japanese maple. Two-tone pink flowers bloom in summer followed by purple berries in the fall.

Golden Tower™ Sambucus
Sambucus nigra 'Jandeboer001' PP 28,957

Golden Tower™ is a unique elderberry variety. Its shimmering golden, lacy leaves truly stand out in the garden. This variety is reminiscent of a Japanese maple and its dense, columnar habit makes it an ideal focal plant in the landscape. Beautiful white flower clusters are produced in spring, followed by bunches of red berries.

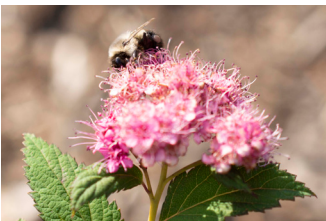

Fandango® Blue Scaevola
Scaevola crassifolia 'Luedansca' PPAF

Looking for true blue flowers? Look no further! Fandango® Blue produces an abundance of fan-shaped blue flowers on a dense, rounded shrub. This variety is quick-growing and drought tolerant.

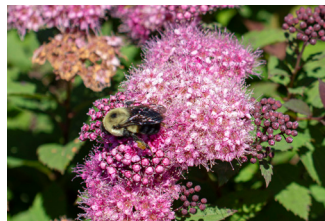

Sphaeralcea 'Orange Crush'
Sphaeralcea ambigua 'Orange Crush' PP 34,220

'Orange Crush' produces an abundance of orange flowers from late December through June. An ideal selection for dry, low-water areas. This shrub thrives in both the landscape and containers.

Empire® Ice Dragon™ Spiraea
Spiraea japonica 'Iceconspir' PP 33,786

Empire® Ice Dragon™ displays attractive foliage on a compact habit. New growth emerges a deep burgundy against blue-green, older foliage for a striking contrast. Pink flowers start in late spring and sporadically re-bloom throughout the season.

Empire® Northern Lights™ Spiraea
Spiraea japonica 'DAVCOP01' PP 31,996

Empire® Northern Lights™ shows off a brilliant display of three colors on one plant. New growth emerges bright red before aging to yellow and then to light green. Foliage colors are most intense in spring and fall. Pink flowers appear in late spring and sporadically re-bloom throughout the season.

Empire® Yeti™ Spiraea
Spiraea japonica 'Conspiyet' PP 28,999

Empire® Yeti™ is a compact Spiraea variety. This special plant produces many clusters of small white flowers that will re-bloom from a trim. It is also self-cleaning, maintaining a clean look throughout the season. Expect it to maintain a low, mounding habit in the landscape. An extremely hardy selection.

Tecoma 'Red Hot'
Tecoma hybrid 'Red Hot' PPAF

Tecoma 'Red Hot' has drought tolerance, a compact habit, and unique flower color. Flowers open crimson red and age to intense orange with a yellow center. The trumpet-shaped blooms are lightly fragrant and attract hummingbirds.

Riot Red® Tecomaria
Tecomaria capensis

Riot Red® cape honeysuckle produces a red flower that is double the size of other Tecomarias on the market. The flower color on this variety is true red, not the common scarlet red color. It is an evergreen with lush foliage and a long bloom window, making this shrubby vine a real standout.

ROYALRAZZ® BUDDLEIA *Buddleia davidii* 'SRPbudroy' PP 33,161
